

NATIONAL FEDERACION OF PANELA PRODUCERS

Fedepanela

LA VIDA SABE A PANELA

FEDEPANELA

It is a non-profit guild entity that represents panela producers across the country.

Its main objective is to seek to improve the quality of life for all producers working in the panela subsector, making this activity competitive and profitable.

Seeks to protect collective interests, ensure fair income for its members, and foster technological, social, commercial, and environmental progress in rural areas nationwide.

Additionally, it supports the promotion and marketing of panela products from small-scale producer associations

Mission

We are a national guild organization committed to promoting research and fostering technological, economic, social, and environmental development within the panela subsector. We guide public policy and manage public and private resources to help improve the quality of life of our federation members.

Vision

By 2027, we aim to be the leading organization representing all sugarcane panela producers. We will position our products both nationally and internationally, contributing to making the sector profitable, sustainable, and competitive.

The Panela Subsector Overview in Numbers

350K Producer families

Over 52 million wages generated per year

70K Production Units

19K Production plants

198K Hectares Planted

The guild is represented by 13 departmental and 125 municipal committees.

Strategic Plan 2024 - 2028

The Strategic Plan, titled “Towards Guild and Sectoral Sustainability and Modernization,” is built around six core pillars that will guide all guild activities over the coming years.

1. Institutional Sustainability
2. Value Chain Sustainability
3. Marketing and Communications
4. Knowledge Management
5. Social Capital Development
6. Environmental Management

The Strategic Plan is currently being updated.

The Growth of Colombian Panela

Exports: 10 Years of Progress

Over the past 10 years, panela exports have shown a steady growth trend. Although there were some fluctuations, such as slight declines in 2021 and 2022, the overall trajectory has been positive. The marked increase between 2022 and 2025 reflects a strong recovery and growing international demand, positioning Colombian panela as an expanding product in global markets.

Cane Syrup and Panela

- **Natural sweeteners** obtained from dehydrated sugarcane juice, mainly composed of sucrose, glucose, and fructose, with trace amounts of vitamins and minerals.
- **Used in the food and baking industries** as raw materials, and in cooking and mixology for syrups, sauces, dressings, and both hot and cold beverages.
- **Versatile and easy to handle**, adding rich flavor and aroma to a wide range of culinary applications..

Value Proposal

A natural food product that falls within the category of artisanal goods, crafted by small-scale producers dedicated to sugarcane cultivation and panela production.

Cane Syrup and Panela Production Process

*Panela is a 100% natural and unrefined sweetener, made directly from sugarcane juice without any chemical processing. Unlike white sugar, it retains all its essential nutrients, making it a healthier and more authentic alternative.

Product Diversification

- ➔ Development of traditional sweets
- ➔ Creation of regional beverages
- ➔ Artisanal liquor production
- ➔ Molasses and energy bars
- ➔ Health-focused and functional products (instant drinks, baking mixes)
- ➔ Snacks, syrups, and infusions
- ➔ Products for the cosmetic and pharmaceutical industries

**All of these products are made with the effort and dedication of small-scale farmers, whose traditional work preserves the authentic flavor and cultural heritage of our land.*
